

Velocity_Xii vs. Port City — Scouting Report

Matchup Overview

Team	Record	Games Logged	Steals/Game	SB Success	Sac Bunts
Port City Frenzy	11-4-1	16	3.6	95%	4
Velocity_Xii	26-15-2	43	1.8	89%	2

No head-to-head record is assumed here — this compares each team's full season sample independently.

Velocity_Xii: Threats to Watch

Top hitters by on-base + slugging, minimum 8 plate appearances.

Batter	PA	AB	AVG	OBP	SLG	HR	XBH	K%	BB%
Ally Brown	102	81	0.444	0.549	0.630	1	9	7.8%	16.7%
Aubree Jones	105	89	0.449	0.533	0.629	0	9	8.6%	13.3%
Peyton Slone	88	76	0.408	0.455	0.684	0	15	8.0%	8.0%
Mia Baker	85	70	0.343	0.459	0.514	0	10	24.7%	15.3%
Reese Peltier	97	85	0.365	0.443	0.565	1	12	23.7%	9.3%
Nora Denman	43	36	0.306	0.419	0.417	0	2	4.7%	16.3%
Addy Mullins	81	69	0.304	0.407	0.449	0	7	27.2%	12.3%
Charleigh Spears	60	56	0.357	0.367	0.393	0	2	8.3%	3.3%
Reese Robinson	91	80	0.312	0.396	0.425	1	6	12.1%	12.1%
Saydie Bledsoe	10	8	0.250	0.400	0.375	0	1	20.0%	20.0%

- **Nora Denman** almost never strikes out (5% K rate over 43 PA) — pitch to soft contact, not around her.
- **Reese Robinson** is an extreme ground-ball hitter (75% of balls in play) — tighten the infield when she's up.

Velocity_Xii: Pitching Staff

Pitcher	BF	K%	BB%	Hit%	WP	PB
---------	----	----	-----	------	----	----

Reese Robinson	282	19.9%	7.8%	25.9%	1	3
Mia Baker	212	21.7%	15.6%	22.2%	5	9
Addy Mullins	57	24.6%	19.3%	24.6%	3	3
Charleigh Spears	7	57.1%	0.0%	42.9%	0	0

- **Addy Mullins** is wilder (19% walk rate) — work the count, take borderline pitches.

Velocity_Xii: Team Tendencies

- **Base stealing is a major weapon:** 76 attempts across 43 games (1.8/game) at a 89% success rate. Prioritize quick catcher pop times and varied pitcher hold times.
- **Rarely bunts** — no need to creep the infield corners in for bunt defense.

Port City Gameplan

Suggested Batting Order

Slot	Batter	PA	AVG	OBP	SLG	K%	BB%
1	Emma Goodman	30	0.476	0.633	0.762	10.0%	30.0%
2	Lucy Calla	32	0.429	0.562	0.524	9.4%	25.0%
3	Reagan Zimmerman	36	0.462	0.556	0.538	13.9%	16.7%
4	Caroline Edwards	22	0.400	0.455	0.900	27.3%	9.1%
5	Finley Andrews	28	0.273	0.429	0.318	17.9%	21.4%
6	Emma Lavelle	24	0.278	0.458	0.389	41.7%	25.0%
7	Paisley Bacon	27	0.304	0.407	0.304	18.5%	14.8%
8	Emory Ebner	27	0.273	0.333	0.364	22.2%	7.4%
9	Caroline Ogburn	34	0.125	0.382	0.125	23.5%	23.5%
10	Claire Ellisor	14	0.091	0.143	0.091	14.3%	7.1%

Ordered by a blended on-base/power/strikeout score ($OBP \times 0.5 + SLG \times 0.3 - K\% \times 0.2$), with the single highest-slugging bat pulled into the cleanup (4th) slot. Players below the plate-appearance threshold, and any names listed in *exclude_batters*, are left off.

Suggested Starting Pitcher

Pitcher	BF	K%	BB%	Hit%	WP	PB
Lucy Calla	121	23.1%	14.0%	17.4%	8	2
Claire Ellisor	55	18.2%	18.2%	18.2%	5	1

Against this opponent, control matters more than usual. Velocity_Xii steals at a 89% success rate — every walk and wild pitch is a near-certain stolen base. Lucy Calla's walk rate (14%) and wild-pitch rate (7%) make her the safer choice here.

Auto-Generated Strategy Notes

1. **Addy Mullins** is wilder (19% walk rate) — work the count, take borderline pitches.
2. **Nora Denman** almost never strikes out (5% K rate over 43 PA) — pitch to soft contact, not around her.
3. **Reese Robinson** is an extreme ground-ball hitter (75% of balls in play) — tighten the infield when she's up.
4. **Base stealing is a major weapon**: 76 attempts across 43 games (1.8/game) at a 89% success rate. Prioritize quick catcher pop times and varied pitcher hold times.
5. **Rarely bunts** — no need to creep the infield corners in for bunt defense.

Stats pulled from each team's full public GameChanger play-by-play logs. Batter identity recovered from free-text play descriptions rather than the scraper's own (unreliable) batter-tracking column. Sample sizes are typically 20–100 PA per player — enough to see real tendencies, not enough to treat any single number as certain, especially under ~20 PA.
